CREA SLIDING SHOWER ENCLOSURE WALL 90 X 200

COLLECTION CREA, CREA SHOWER

PRODUCT CODE:	S900-2614

Product description

CREA is the jewel in our range of shower enclosures. The unique hinge with lifting function offers a completely new quality and design unmatched on the market. The 8 mm thick, safe tempered glass and 200 cm height of the enclosure make the product look smart in every bathroom. In addition, the doors have a special gutter installed, draining each and every drop of water to the inside of the enclosure - even when the doors are open. The CREA series of shower enclosures further includes a sliding cabin with the soft close system and concealed roller system. The long metal handle and protective CleanPro coating protecting the glass are another of the many advantages of this range.
